EDUCATION

The University of Hong Kong   **2023 Sep - Present (2027)**

Bachelor of Engineering (Computer Science) - 3.74 CGPA

EXPERIENCE

Techlution (Front-end developer intern) | *React, React Native*   **2024 Jun - Aug**

- Build and maintain high-quality software solutions, websites and mobile apps including user sites for a parking company, admin portals, landing pages, commercial document automation mobile apps and more for a diverse array of clients, with a team of 6+ developers.
- Proposed app design using flowcharts & prototypes, collaborating with back-end interns and UI/UX team to design & develop the React Native mobile app.
- Collaborated with UX/UI designers to translate design prototypes into functioning web apps.
- Conducted code reviews with supervisors to ensure code quality and best practices.

PROJECTS

Portfolio website | *NextJS*   **2024 – Present**

https://jaxtam.dev

- Designed and developed a personal website using Nextjs, Framer.Motion, and Figma. It hosts the links to some of my leisure projects.
- Implemented responsive designs, wrote clean and maintainable code, and applied best SEO practices for high lighthouse score.
  - Repo: https://github.com/EnhancedJax/jaxtam.dev

JaxCore.app landing page   **2022**

https://jaxcore.app

- Designed and developed a landing page for JaxCore using vanilla web technologies.
  - Repo: https://github.com/Jax-Core/jax-core.github.io
